

Nevada

The National Scenic Byways Program

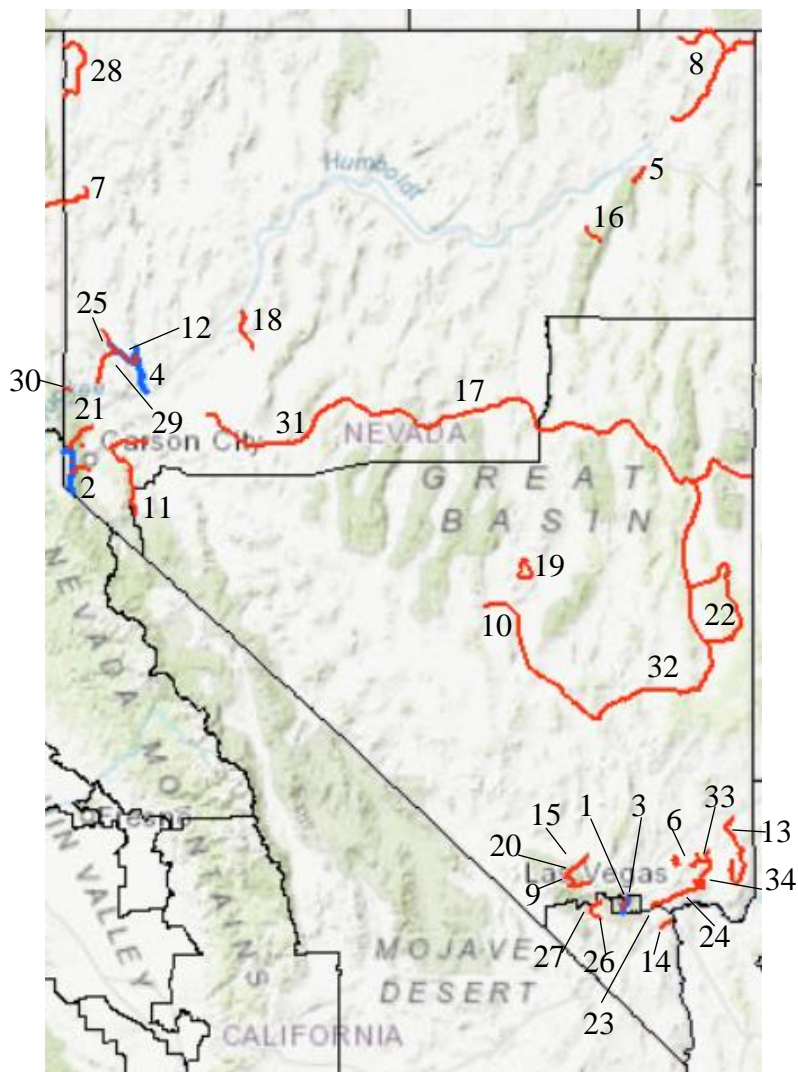

The National Scenic Byways Program, established by Congress in 1991, recognizes historic, scenic and culturally important roads, all of which promote economic development and tourism in communities around the country. The state of Nevada has thirty-four Scenic Byways and was among the first states to establish a scenic highway system in 1983. Nevada is also home to four National Scenic Byways, which received this designation in recognition of their importance to the character and heritage of our nation. With over 360 miles of Scenic Byways, the diversity of available experience is incredibly broad. From magnificent views of Lake Tahoe to the Las Vegas Strip, Nevada's Scenic Byways offer something for everyone. The Las Vegas Strip has also received the designation of an All-American Road, which is the gold-standard for American Scenic Byways. A trip down this Byway offers 75 years of history and roadside charm, and encourages visitors to the state to engage with local communities in a meaningful and immersive way.

Key points:

- Nevada boasts 34 Scenic Byways, including 4 National Scenic Byways and 30 State Scenic Byways.
- 2018 saw 56.5 million visitors spend [\\$65.5 billion](#) across the state.
- Tourism sustains the jobs of [463,440](#) and \$20.7 billion in income.

Lake Tahoe – Eastshore Drive offers breathtaking views of Lake Tahoe's pine trees, snow-capped mountains, and crystal-clear water.

Map Key:

The numbers following each byway name match with the respective byway's numbered location on the map.

Asterisk denotes an All-American Road.
