The National Scenic Byways Program

The National Scenic Byways Program, established by Congress in 1991, recognizes historic, scenic and culturally important roads and promotes tourism and economic development in nearby communities. [Florida's Scenic Highway](#) program was launched in 1996 in partnership with Visit Florida; in 2021, the program celebrates its 25th anniversary. Florida boasts 27 Scenic Byways that stretch over 1,500 miles and through 32 counties. The collection of Byways is continually growing, with the latest road to newly earn the distinction in 2020. Pensacola Scenic Bluffs Highway was the first road to achieve Scenic Byway status upon the inception of the state's program. Florida is also home to one All American Road, the highest honor the FWHA bestows upon Scenic Byways, the Florida Keys Scenic Highway.
